# 01 INTRODUCTION

BRC Coin is a next-generation decentralized digital currency built on the BNB Smart Chain (BEP20), engineered for speed, efficiency, and borderless finance. With the growing global interest in blockchain assets, BRC Coin enters the market with the vision of transforming how value is exchanged and wealth is built digitally.

The project is backed by a strong technical team and a strategic roadmap designed to ensure long-term growth and utility. BRC Coin will be used in a wide range of ecosystems including finance, rewards, gaming, staking, and community-based income systems.

# VISION & MISSION

## Vision

To create a secure, transparent, and decentralized financial ecosystem that empowers individuals and communities across the globe. BRC Coin envisions a future where financial freedom is not limited by geography, intermediaries, or outdated systems — but accessible to everyone through the power of blockchain. We aim to become a widely accepted digital asset not only for trading and investing, but also for real-world utility, rewards, and community empowerment.

## Mission

Our mission is to build a sustainable, utility-driven cryptocurrency ecosystem with real income opportunities for every participant. Through innovative tools like staking, referral bonuses, generation income, seamless BEP20 USDT integration, BRC Coin seeks to:

- Deliver fast, low-cost global transactions
- Reward long-term holders and network builders
- Promote financial literacy and crypto adoption
- Build strategic partnerships with platforms and services
- Establish trust, transparency, and continuous growth through decentralized technologies

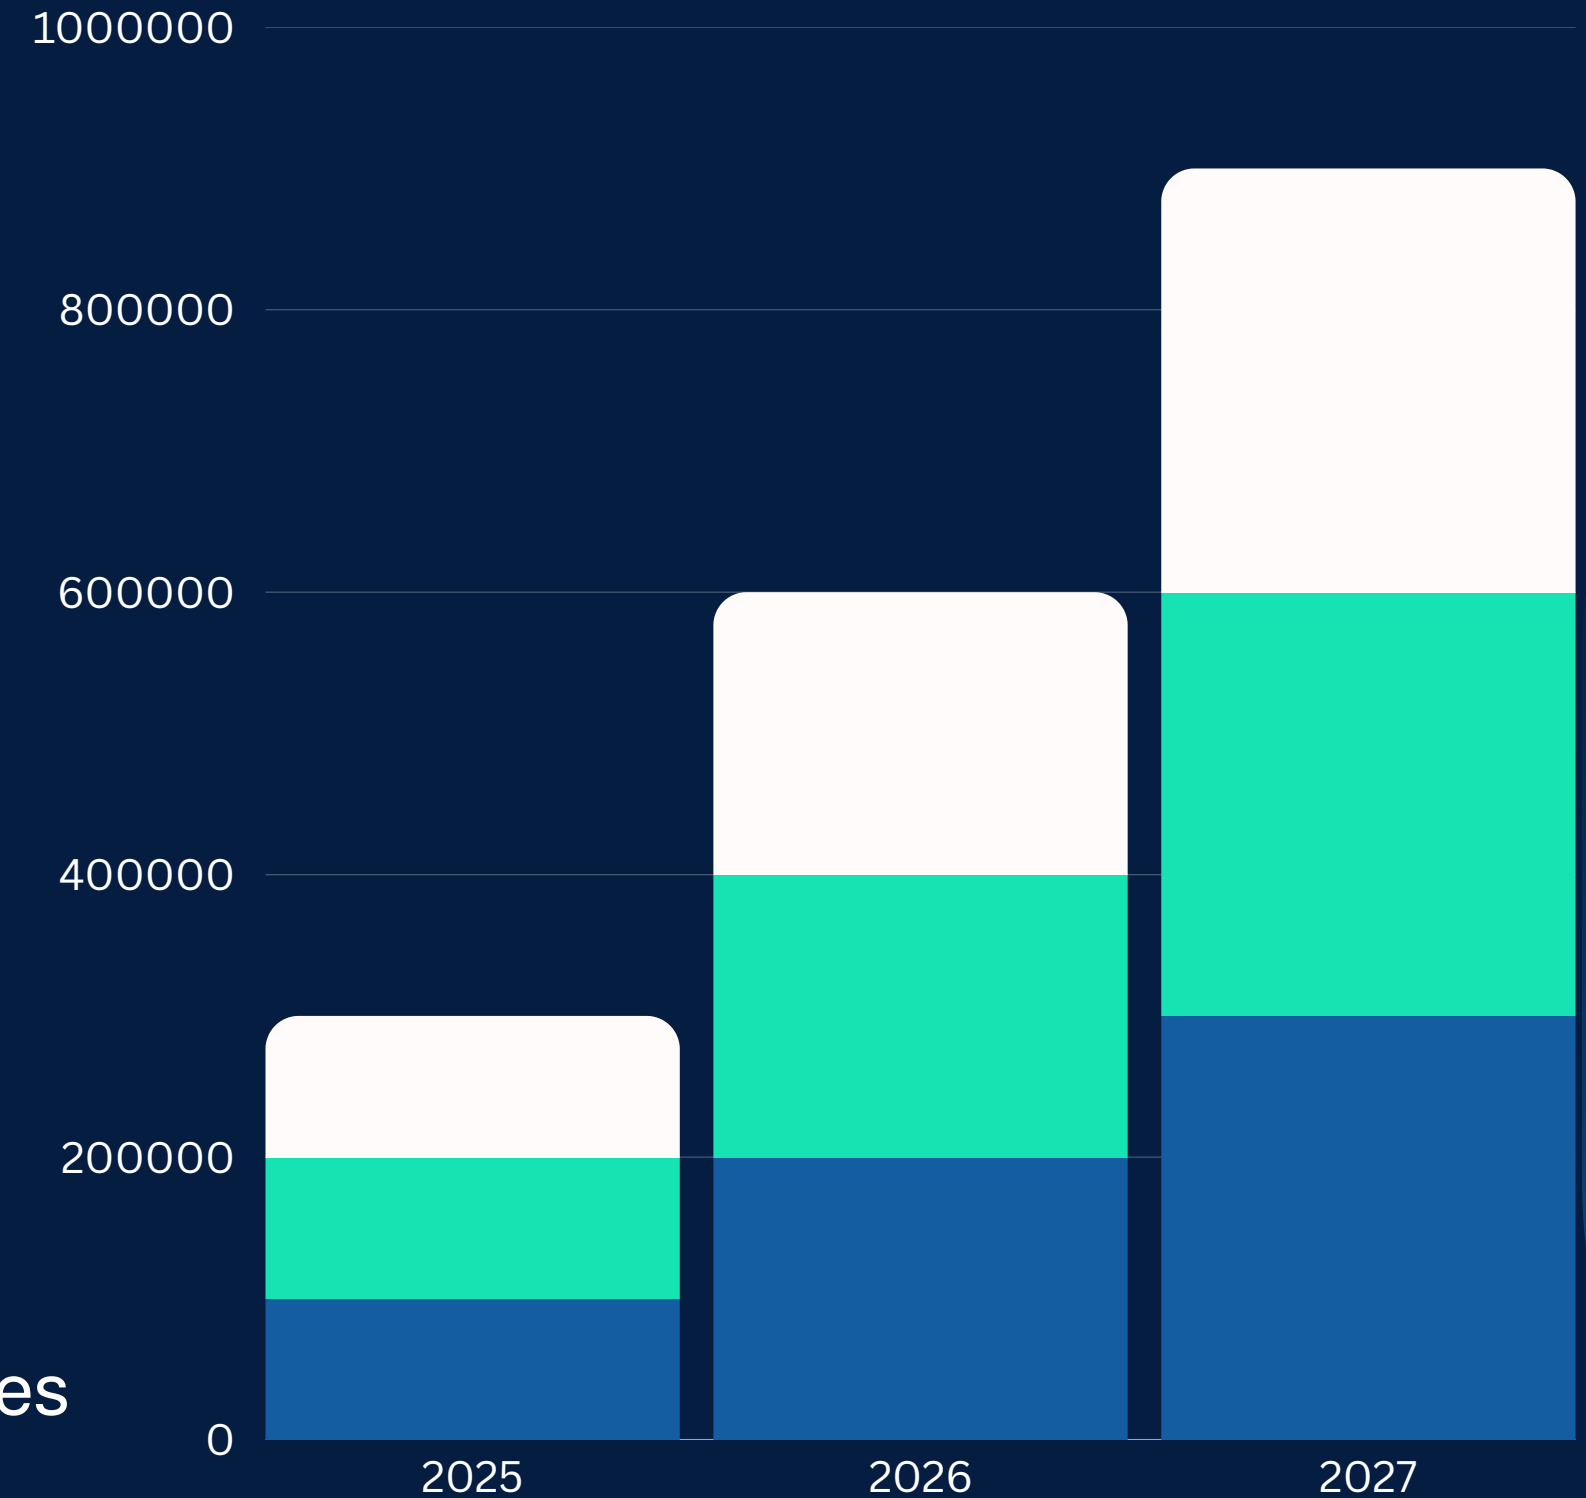

BRC Coin isn't just a token — it's a movement to redefine value exchange and income generation for the digital age.

# 02

# TOKENOMICS

- BRC Coin's tokenomics ensures fair distribution, transparency, and utility-driven demand. Below is a breakdown of the token allocation and usage:
- Total Supply: 100,000,000 BRC
- Presale Supply: 40,000,000 BRC
- Team & Founders: 10,000,000 BRC (locked for 12 months)
- Marketing & Airdrops: 10,000,000 BRC
- Staking Rewards: 20,000,000 BRC
- Liquidity & Exchange Listings: 15,000,000 BRC
- Development Reserve: 5,000,000 BRC
- The token will support real-time use cases such as staking, trading, reward generation, and internal utilities within the BRC ecosystem.

# 03 PRESALE DETAILS

BRC Coin presale is designed to raise essential capital for the development, liquidity, marketing, and growth of the BRC ecosystem. The presale will occur in three distinct stages, each offering early access at progressively increasing prices. All purchases are made in BEP20 USDT, and tokens are delivered instantly to participants' wallets.

Stage	Tokens Available	Price per BRC	Target Raise
Seed Sale	10,000,000 BRC	\$0.01	\$100,000
Private Sale	15,000,000 BRC	\$0.02	\$300,000
Public Sale	15,000,000 BRC	\$0.03	\$450,000

# PRESALE SUMMARY

## Presale Summary

- Total Presale Supply: 40,000,000 BRC (40% of total supply)
- Soft Cap: \$0.50 Million
- Hard Cap: \$2.00 Million
- Accepted Currency: BEP20 USDT
- Minimum Purchase: \$10
- Token Delivery: Instant to buyer's wallet
- Smart Contract Network: Binance Smart Chain (BSC)

04

# PROJECT ROADMAP

## Q3 - 2025

- Presale starts on 01 August 2025— Early investors gain exclusive bonuses and benefits.
- Aggressive marketing campaigns to build awareness and community engagement.

## Q4 2025 - Q4 2026

- Presale ends on 30 August 2026— Completion of token allocation.
- Launch of BRC wallet and staking platform with competitive rewards.
- Integration with DeFi protocols and liquidity mining programs.
- Roll out community governance features allowing holders to vote on proposals.
- Strategic partnerships with exchanges and key industry players.

04

# PROJECT ROADMAP

## Q4 - 2026

- Listing on major exchanges, including 01 September 2026, boosting liquidity and market access.
- Launch of NFT marketplace powered by BRC tokens.
- Release of mobile app for seamless wallet, staking, and trading.
- Expansion into DeFi lending and cross-chain interoperability.

## 2027 & BEYOND

- Continuous upgrades incorporating latest blockchain and DeFi technology.
- Expansion of ecosystem: gaming, metaverse, and real-world use cases.
- Global community-driven events, hackathons, and innovation grants.
- Commitment to green blockchain initiatives and regulatory compliance.

05

# INCOME SYSTEM

- ▶ **REFERRAL INCOME** 10%
- ▶ **LEVEL INCOME** 20% Each level 1%
- ▶ **MATCHING** 20% (1:1:1)
- ▶ **STAKING** UNLIMITED
- ▶ **RANK** ON TEAM SALE
- ▶ **REWARD** PER MONTH
- ▶ **AIRDROP** By BRC Corporation

**06**

## **DEPOSIT & WITHDRAWALS BEP20 USDT**

BRC Coin ecosystem supports fast and secure transactions via the BNB Smart Chain:

### **DEPOSIT METHOD**

- Users can deposit instantly via BEP20 USDT
- Minimum Deposit: \$10
- Instant Credit to Dashboard Wallet

### **WITHDRAWAL SYSTEM**

- Minimum Withdrawal: \$10
- Withdrawals processed automatically to user wallet in BEP20 USDT
- 24/7 Availability with real-time transaction status
- Withdrawal fee 1%

All transactions are handled by an integrated smart gateway, ensuring instant confirmation and low fees.

## 07 USE CASES & ECOSYSTEM UTILITY

BRC Coin will power various real-world use cases including:

- Internal Marketplace for token-based transactions
- P2P Exchange within platform
- Loyalty programs for eCommerce integrations
- NFT Minting & Rewards
- Event ticketing and staking-based voting systems
- E-learning platform tokenization

More use cases will roll out gradually as partnerships are formed post-exchange listing.

08

# NEXT PROJECT

BRC Coin will power various real-world use cases including:

## UNIVERSAL ATM

ATM for stable currency unicast any other currencies.

## SMART BANKING BRANCH

kyc handles lender negotiation or insurance procedures.

## AUTOMATION

Payment of invoices, create, deposited or integration for betting offices.

## DECENTRALIZATION

All transactions are in a blockchain, each machine is a network builder.
